## Harvard School of Dental Medicine

Sapna Nath (2024), Vice President

The Harvard School of Dental Medicine AAWD chapter hosted a Pumpkin Painting Night on October 26th, 2021 as a kickoff event for the academic year. Attendees for the event included HSDM 1st to 4th year students, residents, alumni, and faculty.

As students checked into the event, they were able to sign-up for a mentorship pairing program with faculty dental professionals at Harvard. Attendees then introduced themselves and mingled as they decorated their own pumpkins with paint, pipe cleaners, pompoms, and other decorations. Conversation topics ranged from weekend plans to alternative professional opportunities after dental school. For many attendees, this was their introduction to the Harvard AAWD community after a year of virtual events.

The event served as an incredible opportunity for students, residents, and faculty to meet each other and network in an informal setting after class and clinic. Our Pumpkin Painting Night further helped strengthen the Harvard AAWD community and improve communication between different class years, pre-doctoral candidates and post-doctoral candidates, and alumni. In the future, Harvard AAWD plans to continue to host similar events to allow students to meet other individuals within our chapter and HSDM community. Photos were taken by Harvard AAWD
